EXAMINER'S COMMENT

Response to Amendment

1. The amendment filed on 2/24/2004 has been entered. The examiner has withdrawn the 35 USC 112 rejection of claim 30 based on the amendment to claim 30.

Drawings

2. New corrected drawings are required in this application because the current drawings are informal.

Allowable Subject Matter

3. Claims 1-6, 8-18, 21, 22, 24-28, 30-33 and 41-58 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The applicant has discovered that the combination of a sequence of layers comprising ZnOx/Ag/NiCrOx in this order, going away from a substrate, results in a coated article that has a combination of high transmission, low sheet resistance and improved durability compared to the cited art. The prior art fails to teach or suggest the combination of durability, transmission and sheet resistance associated with the claimed invention. In particular, the prior art fails to teach or suggest that the use of a NiCrOx blocker layer(s) would result in a coated article with specific chemical and/or mechanical durability (see [0019], [0022], [0049] and [0050]).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
